

Fuel Quality Workshop (FIR-03)

September 10, 2010 - 8:00 am - 4:30 pm Instructor - George Lanthier

F.W. Webb - 80 Park Ave - Williston, VT

7 NORA CEUs & 4 VT Oilheat CEUS

This seminar covers heating fuel from the refinery to the nozzle. We will give you the straight answers on the following questions being asked by everyone serving oil-fired heating equipment today. We'll give you the facts, you form your own conclusions.

- Why are oil filters and strainers dirtier?
- Why do my tune-ups take longer?
- Why is spooq and where does it come from?
- What is Bioheat, does it work and what are its advantages and problems?
- Why are Bioheat ULS coming?
- Do additives work and which work best?
- Why does the oil smell different?
- What is pudding skin sludge?
- What is ULS, does it work and what are its advantages and problems?
- Are multiple filters really necessary?
- Will combustion testing help?

George Lanthier is a nationally known instructor and expert on oil burning equipment and HVAC trade issues. He has been a Massachusetts state certified instructor since 1975, a former Chief Instructor and Curriculum Coordinator for the New England Fuel Institute. George brings a veritable gold mine of real life experience and knowledge to the classroom. George has written articles for Contractor Canada, Oil heating, Fuel Oil News, Oil & Energy and HVAC insider, and has served on the Petroleum Marketing Education Foundation's Oil Heat Technician's Manual Editorial Steering Committee. His credits as an author also include Combustion & Oil Burning Equipment, The Riello Handbook, and the CMR 4 Guide. VFDA is pleased to bring this outstanding educational opportunity to Vermont.

Certificates: Suitable for framing, will be sent to all students completing the requirements of this seminar AFTER the seminar date. VFDA reserves the right to withhold certificates for students who depart prior to the end of the class or arrive late.

THE DETAILS:

Cancellation: VFDA reserves the right to cancel any and all seminars for lack of registrations. Pre-registered students will be notified using the contact information contained in the completed registration form. Firms prepaid for cancelled seminars will receive a full refund.

Directions: For directions to the class location, please go to www.vfec.org

Documentation Requirements: There are no documentation requirements for this course.

Late Arrival/Early Departure: Please be on time for class. Certificates will only be issued to students completing all aspects of the class.

Lunch: On your own. You will have 30 minutes for lunch.

Maximum: Only 25 students will be allowed to attend this seminar.

Absence: Firms registering students who fail to attend without prior notice on or before the registration deadline date will be billed and held liable for the full amount tuition.

Payment: Checks may be payable to VFDA and must accompany registration form. If you are a member, registration can be secured with a credit card or billed to you.

Registration Deadlines: Advanced registration is required. Registrations must be received by the dates(s) noted. VFDA urges you to fax early to reserve seats. Registrations are processed in a "first come, first serve" basis.

Sign-in: Students attending must sign in with the instructor in order to receive a certificate. We ask that you please print clearly, illegible names will delay issuance of certificates.

Walk-in or Late Registration: VFDA does not, in any way, represent that it can accommodate walk-in students. VFDA will do its best to accommodate late registrants.

Tuition: \$150 Members & \$225 Non-Members

Questions: Please contact VFDA at (802) 223-7750 or email training@vermontfuel.com.
